Talk show shoot

I come to the studio and film your segment with two cameras, up to 2 hours on site. You get the full 7–10 minute segment edited, plus 3 vertical reels pulled from the best moments.

Podcast production

Two-camera setup for episodes up to 60 minutes. The edit includes angle switching, audio cleanup and an intro and outro, plus 3 short clips to promote the episode.

Lifestyle day

Up to 3 hours and 2–3 locations around Buffalo. You get one 60–90 second cinematic lifestyle video and 2 vertical reels that show who you are off camera.

Buffalo reels

We plan the topic and script together, then I shoot across several locations. Each reel runs 30–60 seconds with music, captions and fast cuts.

Podcast episodes over 60 minutes are +$75 per extra 30 minutes. Extra reels cut from footage we already shot are $60 each.

Two ways to work. Same quality.

Lock in a bundle and book dates as you need them, or pay for each shoot on its own. No monthly contract either way.
